FREMANTLEMEDIA STRENGTHENS POSITION IN NORTH AMERICA

In March 2014, RTL Group's global production arm FremantleMedia signed a deal to acquire a 75 per cent stake in the US-based reality production company, 495 Productions, with the opportunity to acquire the remaining shareholding in the future.

With formats like *America's Got Talent* and *American Idol*, FremantleMedia already produces big entertainment shows for US networks, while its subsidiary Original Productions produces formats such as *Storage Wars* which are aimed at male audiences. This is now complemented by 495 Productions which produces edgy reality shows appealing to young female viewers, strengthening FremantleMedia North America's position in the fast-growing US cable market.

495 Productions has a strong track record of selling, keeping on air and creating spin-offs of successful shows. The company's *Jersey Shore*, on air from 2009 to 2012, went on to become MTV's highest-rated show in the channel's history and a global hit with multiple spin-offs including *Snooki and Jwoww*, *The Show with Vinny* and *The Pauly D Project*.

RTL Kockica: Filling a gap in the market

On Saturday 11 January 2014 at 11:01, the new Croatian children's channel RTL Kockica ("RTL Dice") went on the air. It is the first free-to-air channel dedicated to children's programming on the Croatian TV landscape.

* * * *

RTL Kockica targets preschoolers and young school children (4- to 14-year-olds) and in the evenings families in general. The channel is laying the emphasis on local programmes, thereby assuming a niche in the country's TV market. From the first day of broadcast, RTL Kockica recorded successful ratings, beyond what was expected: achieving an average daytime audience share of 20.6 per cent in the target group of children aged 4 to 14 in the first quarter of 2014.

GUILLAUME DE POSCH AND ANKE SCHÄFERKORDT
Co-CEOs of RTL Group

“Overall, a good start into the year”

Joint statement from Anke Schäferkordt and Guillaume de Posch, Co-Chief Executive Officers of RTL Group:

“Overall, we had a good start into the year and generated one of our best first-quarter results. While Groupe M6 and RTL Radio operated in a continuously very challenging economic environment in France, all our other broadcasters reported higher or stable profit contributions year-on-year, benefiting from the recovery of most of our European TV advertising markets.

Looking at the first quarter, it is important to explain that with the late Easter this year, some advertising revenue from the traditional build-up campaigns for Easter was shifted from March to April 2014, and thus into the second quarter. In addition, the second quarter is expected to profit from advertising campaigns in the run-up to the football World Cup in June, while the weeks of such big tournaments are usually less frequented, as advertisers try to avoid the direct competition to these events.

We are continuing to invest across all strategic pillars: broadcast, content and digital. We are delighted about the successful launch of our Croatian children’s channel RTL Kockica and are looking forward to launching a new pay-TV channel, Geo Television, in Germany, which builds on the strong and popular magazine brand ‘Geo’. Additionally, we have significantly strengthened our position in the US with the acquisition of 495 Productions which is one of the leading production companies for the growing US cable market.

Based on our very healthy financial position, we have the investment capacity to explore more opportunities and will continue to do so, applying our strict investment criteria to generate profitable growth.

We confirm our outlook for the full year 2014 and expect our total revenue, at constant scope and exchange rates, to be broadly stable. Additionally, our EBITA for 2014 is also expected to be broadly stable.”

Improving TV advertising market conditions in most European countries

- Advertising markets continued to show signs of recovery in the first quarter of 2014. With the exceptions of Germany which was estimated to be stable and France which was estimated to be down 2.0 per cent, all European net TV advertising markets in RTL Group's territories were up year-on-year
- Reported Group revenue was stable at €1,313 million (Q1/2013: €1,317 million). Lower revenues at UFA Sports and negative exchange rate effects were offset by higher revenues from RTL Nederland and FremantleMedia
- Reported EBITA was €194 million compared to €207 million in Q1/2013. With the exceptions of Groupe M6 and RTL Radio in France, all broadcasting operations reported stable or higher profit contributions. The lower Group EBITA is also due to the Easter effect compared to 2013, when the first quarter completely included the build-up campaigns for Easter
- EBITA margin was accordingly slightly down to 14.8 per cent (Q1/2013: 15.7 per cent)
- Net profit attributable to RTL Group shareholders amounted to €92 million. In the first quarter of 2013, the net profit of €133 million included a significant positive one-off effect of €13 million, resulting from the partial reversal of an impairment on RTL Group's holding in the Spanish broadcasting company Atresmedia
- Net cash from operating activities was €205 million, resulting in an operating cash conversion of 112 per cent (Q1/2013: 171 per cent)
- As of 31 March 2014, RTL Group had a net cash position of €142 million (31 December 2013: €6 million). This net cash position was reduced following the payment of a final dividend of €697 million on 7 May 2014
- On 28 April 2014, RTL Group entered into a liquidity agreement with Kepler Capital Markets SA in view of fostering the liquidity and regular trading of the RTL Group shares on the Brussels and Luxembourg stock exchanges. This agreement was entered within the framework of the authorisation to acquire own shares granted by the Annual General Meeting held on 16 April 2014

Solid performance across the Group

- Despite the Easter effect drawing advertising revenue from March to April 2014, Mediengruppe RTL Deutschland's EBITA remained stable at the record level of €134 million reached in Q1/2013
- At Groupe M6, EBITA was down to €43 million (Q1/2013: €60 million) due to lower TV advertising revenue and higher programme investments year-on-year
- FremantleMedia's EBITA reached €9 million (Q1/2013: €10 million)
- RTL Nederland's EBITA was up to €6 million from €4 million in Q1/2013, driven by higher TV advertising revenue

RTL Group continues to deliver on its strategic goals

Broadcast

- In January 2014, RTL Hrvatska launched its new children's channel RTL Kockica. In the first quarter 2014, the new channel already achieved an average daytime audience share of 20.6 per cent among children
- On 27 March, RTL CBS Asia Entertainment Network launched its second pay-TV channel RTL CBS Extreme HD. The channel aims to cater male audiences and offers action-packed entertainment programmes. The channel is already on air in Singapore, Thailand, the Philippines, Malaysia and Indonesia
- On 8 May, Mediengruppe RTL Deutschland launches its new pay-TV channel, Geo Television, which will be available on Deutsche Telekom's IPTV platform Entertain

Content

- End of March 2014, FremantleMedia acquired a 75 per cent majority stake in the US-based reality production company, 495 Productions, and has the opportunity to acquire the remaining shareholding in the future. This allows FremantleMedia to expand its share of the valuable US cable market and will complement and diversify FremantleMedia's existing portfolio of content and clients in the biggest TV market worldwide

Digital

- In February 2014, FremantleMedia and Vice Media announced a partnership to create a multi-channel food platform. The companies will co-develop and co-produce digital content for the vertical dubbed "Munchies", which was launched at this year's Mip TV and which FremantleMedia will take to TV around the world
- RTL Group has a strong and rapidly growing presence across all digital platforms. In the first quarter of 2014:
 - RTL Group's total online video views, including catch-up TV services and websites as well as BroadbandTV on Youtube amounted to 7.2 billion, up 228 per cent year-on-year
 - of which FremantleMedia's more than 150 Youtube channels attracted 1.62 billion views, up 30 per cent year-on-year
 - Online video advertising was up 17 per cent in Germany and up 23 per cent in the Netherlands year-on-year

The eighth season of the popular jungle show *Ich bin ein Star – Holt mich hier raus!* (I'm A Celebrity – Get Me Out Of Here!) scored its best season so far with an average audience share of 39.5 per cent in the target group of viewers aged 14 to 59, and was also the most popular TV format in the first quarter in this demographic. Other audience favourites were broadcasts of the Formula One races, with 43.6 per cent of the viewers aged 14 to 59 watching the Grand Prix of Australia on 16 March 2014; *Deutschland sucht den Superstar* (Idols); *Wer wird Millionär?* (Who Wants To Be A Millionaire?); and the reality formats *Der Bachelor* and *Vermisst*. *RTL Aktuell* was again Germany's most popular news programme among viewers aged 14 to 59, with an audience share of 17.9 per cent.

During the first three months of 2014, **Vox** scored an average audience share of 6.7 per cent in the target group of viewers aged 14 to 59 (Q1/2013: 7.8 per cent). This decrease mainly results from the great success of RTL Television's *Ich bin ein Star – Holt mich hier raus!* in January and the Olympic Winter Games aired on the public broadcasters in February. In March, the audience share of Vox bounced back strongly, reaching a solid level of 7.0 per cent. Especially popular were daytime formats such as *Shopping Queen* and *4 Hochzeiten und eine Traumreise*. The US series *Rizzoli & Isles* was also popular with viewers, attracting an average audience share of 8.7 per cent in the target group.

RTL II achieved an average audience share of 5.5 per cent among viewers aged 14 to 59 (Q1/2013: 5.6). The access prime time programming with *Köln 50667* and *Berlin – Tag & Nacht* continued to be popular. Also, *Die Geissens* and cult series *Game Of Thrones* drew large numbers of viewers.

The decrease is mainly due to the launch of the new free-to-air children's channel Disney Channel in Germany. Popular formats included *Dragons – Die Wächter von Berk*, which was watched by an average 26.5 per cent of the kids aged 3 to 13 and *Tom and Jerry* with 27.9 per cent in its target group.

The news channel **N-TV** attracted 1.0 per cent (Q1/2013: 0.9 per cent) of the viewers aged 14 to 59. Especially popular are N-TV's news casts in the morning and *Telebörse*, N-TV's reports from the stock markets. In March, the channel's website *N-TV.de* and the mobile offer scored a new record with a total of 85.4 million visits.

Mediengruppe RTL Deutschland's family of catch-up services, combined with the clip portal *Clipfish.de*, Clipfish Music HbbTV and the unit's channel and thematic websites, reached a total number of 338 million video views of professionally produced content. GROUPE M6

FINANCIAL RESULTS

The French net TV advertising market was down by an estimated 2.0 per cent compared to the first quarter of 2013, with Groupe M6 performing in line with the market.

In August 2013, RTL Nederland acquired a 65 per cent stake in The Entertainment Group, the leading video-on-demand (VOD) company in the Netherlands, which operates the VOD service Videoland. Since November 2013, the company offers "Videoland Unlimited" via TV providers and in May 2014 as a stand-alone service via *Videoland.com*. So far, the offer has registered more than 40,000 subscribers to the pay service via TV providers.

The new subscription-based video service, NLziet, is scheduled to launch towards the end of the second quarter of 2014. NLziet is a unique collaboration between the commercial broadcasters RTL Nederland and SBS with the Dutch public broadcasters. The platform lets viewers watch Holland's most popular programmes – from TV series and films to reality shows, documentaries and talent shows.

RTL BELGIUM

FINANCIAL RESULTS

In the first quarter of 2014, the net TV advertising market in Belgium was slightly up with RTL Belgium outperforming the market. Nonetheless, RTL Belgium's revenue was down to €51 million (Q1/2013: €52 million) during the first quarter 2014 as higher advertising revenue was offset by lower diversification revenue. EBITA was up to €13 million, reflecting cost savings in the TV business, partly offset by higher costs in the unit's radio activities.

With a combined audience share of 18.0 per cent (Q1/2013: 18.7 per cent), the unit's three stations – RTL Radio, RTL 2 and Fun Radio – continued to lead over their main commercial competitors, the radio families of NRJ (15.7 per cent) and Lagardère (13.0 per cent).

RTL Radio in France remained the country's number one radio station – in the latest audience survey, the station ranked first in audience share with a share of 11.2 per cent (Q1/2013: 12.4 per cent). **Fun Radio** registered an audience share of 3.8 per cent (up 0.1 percentage points year-on-year), while **RTL 2** had a share of 3.0 per cent (up 0.5 percentage points year-on-year).

OTHER SEGMENTS

This segment comprises the fully consolidated businesses RTL Hungary, RTL Hrvatska (Croatia), the German radio business, and the associate Atresmedia in Spain.

Following a profound decline of the net TV advertising market since 2009, the Hungarian TV advertising market showed first signs of a potential recovery in the reporting period, estimated to be up 2.3 per cent compared to the first quarter of 2013. Revenue of **RTL Hungary** was stable at €20 million (Q1/2013: €20 million), while EBITA improved to €1 million (Q1/2013: minus €1 million).

With a combined average prime-time audience share of 38.0 per cent among viewers aged 18 to 49 in the first three months of 2014 (Q1/2013: 36.4 per cent), the gap between the Hungarian RTL family of channels and its competitor TV 2 Group increased to 20.2 percentage points (Q1/2013: 16.4 percentage points). Flagship channel RTL Klub attracted an average 20.6 per cent of the viewers aged 18 to 49 in prime time (Q1/2013: 22.9 per cent). The RTL cable channels increased their combined prime-time audience share to 17.4 per cent in the same target group (Q1/2013: 13.5 per cent). Especially RTL II performed very well, more than tripling its audience share to 4.3 per cent of the 18 to 49 year-olds in prime time (Q1/2013: 1.3 per cent).

RTL Hrvatska: In Croatia, the advertising market was estimated to be up 2.3 per cent. Revenue of RTL Hrvatska was stable at €7 million (Q1/2013: €7 million), while EBITA improved to minus €1 million (Q1/2013: minus €2 million).

RTL Hrvatska's channels achieved a combined prime-time audience share of 26.5 per cent in the target group of viewers aged 18 to 49 (Q1/2013: 30.0 per cent). The flagship channel RTL Televizija recorded a prime-time audience share of 18.7 per cent (Q1/2013: 23.4 per cent), while RTL 2 increased its audience share by 0.1 percentage points year-on-year, to 6.6 per cent. RTL Hrvatska's new children's channel, RTL Kockica, was launched very successfully in January 2014, achieving an average daytime audience share of 20.6 per cent in the target group of children aged 4 to 14. It is the first Croatian free TV channel for kids and families.

Atresmedia in Spain: In the first quarter of 2014, the Spanish TV advertising market continued to show signs of recovery and was estimated to be up 3.1 per cent year-on-year. The Atresmedia family of TV channels continued to outperform the market. On a 100 per cent basis, the company's revenue increased by 3.6 per cent to €204 million (Q1/2013: €197 million) based on higher advertising revenue. First-quarter operating profit (EBITDA) increased by 55 per cent to €12.5 million (Q1/2013: €8 million). This is due to a combination of higher revenues and cost discipline. The net profit of Atresmedia on a 100 per cent basis for the reporting period was €3.3 million, up from €1.0 million in the previous year.

Atresmedia reached its highest audience level ever in the first quarter of 2014 with a combined total audience share of 30.0 per cent (Q1/2013: 28.2 per cent).

The contribution to RTL Group's EBITA amounted to €1 million (Q1/2013: loss of €1 million)

RTL Radio Deutschland reported revenues of €11 million (Q1/2013: €12 million). EBITA was stable at €2 million (Q1/2013: €2 million).

Main portfolio changes**Best of TV**

Best of TV has developed a leading position in France in distributing infomercial and teleshopping products through major French retail chains. This acquisition enables Groupe M6 to strengthen the position of its subsidiary, Home Shopping Service, in the home shopping and infomercial business.

495 Productions

On 26 March 2014, RTL Group acquired 75 per cent of 495 Productions Holdings LLC and of its 100 per cent affiliates ('495 Productions'). 495 Productions is a US-based production entity specialising in unscripted, female-skewed docu-series for cable networks. This acquisition enables FremantleMedia to expand and diversify its core TV production business in the United States and internationally.

Income tax expense

In the first quarter of 2014, the tax expense was €70 million (Q1/2013: expense of €61 million), reflecting lower commission income and prior year adjustments.

Profit for the year attributable to RTL Group shareholders

NOTES TO THE CONDENSED CONSOLIDATED INTERIM FINANCIAL INFORMATION

1. REPORTING ENTITY AND STATEMENT OF COMPLIANCE

RTL Group SA, the parent company, is domiciled and incorporated in Luxembourg. This condensed consolidated interim financial information is presented in accordance with the requirements of IAS 34 Interim Financial Reporting as adopted by the European Union and should be read in conjunction with the consolidated annual financial statements for the year ended 31 December 2013.

RTL Group forecasts and projections, taking account of reasonably possible changes in trading performance, show that the Group will be able to operate within the level of its current financing facilities. The Management have a reasonable expectation that the Group has adequate resources to continue in operational existence for the foreseeable future. Therefore RTL Group continues to adopt the going concern basis in preparing its condensed consolidated interim financial information.

This condensed consolidated interim financial information was approved by the Board of Directors on 7 May 2014.

2. SIGNIFICANT ACCOUNTING POLICIES

The accounting policies have been consistently applied by the Group entities and are consistent with those used in previous year, except as follows:

a. New and amended standards and interpretations adopted by the Group

The following standards, amendments to standards and new interpretations are mandatory for the first time for the financial period beginning 1 January 2014:

- IAS 27, "Separate financial statements" (revised 2011) (1);
- IAS 28, "Associates and joint ventures" (revised 2011) (1);
- IAS 32 (amendments), "Financial instruments: presentation – offsetting financial assets and financial liabilities"(1);
- IAS 36 (amendments), "Impairment of assets" – effective from 1 January 2014 – early adopted by the Group (1);
- IAS 39 (amendments), "Financial instruments: recognition and measurement" (1);
- IFRS 10, "Consolidated financial statements". Under IFRS 10, subsidiaries are all entities including structured entities over which the Group has control. The Group controls an entity when the Group has power over an entity, is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect these returns through its power over the entity. Subsidiaries are fully consolidated from the date on which control is transferred to the Group. They are deconsolidated from the date that control ceases. The Group has reassessed the control over its investees in the light of the provisions of IFRS 10 and concluded that no change was necessary (1);
- IFRS 11, "Joint arrangements". Under IFRS 11, investments in joint arrangements are classified either as joint operations or joint ventures, depending on the contractual rights and obligations each investor has rather than the legal structure of the joint arrangement. The Group has assessed the nature of its joint arrangements and determined that all are joint ventures. The Group's joint arrangements which were previously included by proportionate consolidation, are now classified as joint ventures under IFRS11 and are therefore accounted for using the equity method in accordance with the provisions of the amended IAS 28, "Associates and Joint ventures". The change affected several financial statement line items resulting in decreasing revenue and expenses, assets and liabilities. Nevertheless, profit for the period and equity were unchanged. The financial effects of the change in accounting policies on the financial statement are presented in note 12;

- IFRS 12, "Disclosures of interests in other entities" includes the disclosure requirements for all forms of interests in other entities including joint arrangements, associates, and unconsolidated structured entities. The Group will modify its disclosures accordingly at year-end.

b. Standards and amendments to existing standards that are not yet effective and have not been early adopted by the Group

The following new standard has been published but is not effective for the Group's accounting period beginning on 1 January 2014:

- IFRS 9, "Financial instruments", addresses the classification, measurement and recognition of financial assets and financial liabilities. IFRS 9 was issued in November 2009 and October 2010. It replaces the parts of IAS 39 that relate to the classification and measurement of financial instruments. IFRS 9 requires financial assets to be classified into two measurement categories: those measured at fair value and those measured at amortised cost. The determination is made at initial recognition. The classification depends on the entity's business model for managing its financial instruments and the contractual cash flow characteristics of the instrument. For financial liabilities, the standard retains most of the IAS 39 requirements. The main change is that, in cases where the fair value option is taken for financial liabilities, the part of a fair value change due to an entity's own credit risk is recorded in other comprehensive income rather than the income statement, unless this creates an accounting mismatch. In addition, a final standard on hedging (excluding macro hedging) has been issued in November 2013 which aligns hedge accounting more closely with risk management, and so should result in more 'decision-useful' information to users of financial statements. The Group is yet to assess IFRS 9's full impact and will also consider the impact of the remaining phases of IFRS 9 when completed by the Board (2).

The following new standards and amendments to standards have been published but are not effective for the Group's accounting period beginning on 1 January 2014 and are expected to have a limited impact for the Group:

- IAS 19 revised, "Employee benefits", on defined benefit plans (effective 1 July 2014) (2);
- IFRIC 21, "Levies" – effective from 1 January 2014 (2);
- Annual improvements to IFRSs 2012-2013 – effective from 1 July 2014 (2).

(1) The application of these standards and amendments had no significant impact for the Group.

(2) These standards and interpretations have not been yet endorsed by the European Union.

3. ACCOUNTING ESTIMATES AND JUDGEMENTS

The preparation of condensed consolidated interim financial information requires Management to make judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets and liabilities, income and expenses. Actual results may differ from these estimates.

In preparing these condensed consolidated interim financial information the significant judgements made by the Management in applying the Group's accounting policies and the key sources of estimation uncertainty were the same as those applied to the consolidated financial statements as at and for the year ended 31 December 2013.

Consolidation of entities in which the Group holds less than 50 per cent

Management consider that the Group has de facto control of Groupe M6 even though it has less than 50 per cent of the voting rights. The Group is the majority shareholder of Groupe M6 while the balance of other holdings remains highly dispersed and the other shareholders have not organised their interest in such a way that they intend to vote differently from the Group.

4. FINANCIAL RISK MANAGEMENT

4. 1.

Financial risks factors

The Group's activities expose it to a variety of financial risks: market risk (including currency risk, fair value interest rate risk, cash flow interest rate risk and price risk), credit risk and liquidity risk.

These condensed interim financial statements do not include all financial risk management information and disclosures required in the annual financial statements; they should be read in conjunction with the Group's annual financial statements as at 31 December 2013. There have been no changes in the risk management policies and organisation since year end.

4. 2.

Accounting classifications and fair value hierarchy

4. 2. 1.

Financial instruments by category

The fair value of each class of financial assets and liabilities are equivalent to their carrying amount.

4. 2. 2.

Fair value hierarchy

The following table presents the Group's financial assets and liabilities measured at fair value.

The different levels have been defined as follows:

- Level 1: quoted prices (unadjusted) in active markets for identical assets (or liabilities);
- Level 2: inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. prices) or indirectly (i.e. derived from prices); and
- Level 3: inputs for the asset or the liability that are not based on observable market data (unobservable inputs).

The fair value of financial instruments traded in active markets are based on quoted market prices at the balance sheet date. A market is regarded as active if quoted prices are readily and regularly available from an exchange, dealer, broker, industry group, pricing service, or regulatory agency, and those prices represent actual and regularly occurring market transactions on an arm's length basis. These instruments are included in Level 1. The quoted market price used for financial assets by the Group is the current bid price.

The fair value of financial instruments that are not traded in an active market are determined by using valuation techniques. These valuation techniques maximise the use of observable market data where it is available and rely as little as possible on entity-specific estimates. If all significant inputs required to fair value an instrument are observable, the instrument is included in Level 2.

If one or more of the significant inputs is not based on observable market data, the instrument is included in Level 3.

Specific valuation techniques used to value financial instruments include:

- Quoted market prices or dealer quotes for similar instruments (Level 2);
- The fair value of forward foreign exchange contracts classified under Level 2 are determined using forward exchange rates at the balance sheet date, with the resulting value discounted back to present value;
- For instruments classified under Level 3, other techniques, such as discounted cash flow analysis, are used to determine fair value for the remaining financial instruments.

There was no change in Level 3 instruments for the period ended 31 March 2014.

6. ACQUISITIONS AND DISPOSALS

6.1.

Details of main acquisitions

Details of the main acquisitions in the period are set out below. Had the business combinations been at the beginning of the year, the revenue and the profit attributable to RTL Group would not have materially changed.

March 2014

Best of TV

On 7 January 2014, Groupe M6 acquired 51 per cent of Best of TV SAS. Best of TV has developed a leading position in France in distributing infomercial and teleshopping products through major French retail chains. This acquisition enables Groupe M6 to strengthen the position of its subsidiary, Home Shopping Service, in the home shopping and infomercial business. The transaction qualified as a business combination since RTL Group gained the control of Best of TV. The purchase consideration amounted to €9 million, net of cash acquired and resulted in the recognition of a provisional goodwill of €8 million. Goodwill in connection with the transaction will not be tax deductible. The remaining 49 per cent interest is subject to put and call options based on the fair value of the entity at the exercise date between 2017 and 2025. The amount of the option is capped at €19 million. The fair value of the put option has been recognised as a liability for a discounted amount of €16 million. This is a Level 3 fair value measurement at initial recognition.

495 Productions

On 26 March 2014, RTL Group acquired 75 per cent of 495 Productions Holdings LLC and its 100 per cent affiliates ('495 Productions'). 495 Productions is a US-based production entity specialising in unscripted, female-skewed docu-series for cable networks. This acquisition enables FremantleMedia to expand and diversify its core TV production business internationally. The transaction qualified as a business combination since RTL Group gained the control of 495 Productions. The purchase consideration amounted to €21 million, net of cash acquired and included an earn-out mechanism based on a variable performance component of €3 million. This resulted in the recognition of a provisional goodwill of €24 million. Goodwill in connection with the transaction will be tax deductible. The remaining 25 per cent interest is subject to put and call options based on a performance-related component. The fair value of the put option has been recognised as a liability at present value for €7 million. This is a Level 3 fair value measurement at initial recognition.

7. INVESTMENTS ACCOUNTED FOR USING THE EQUITY METHOD

The ownership of RTL Group in Atresmedia decreased from 20.5 per cent at 31 December 2013 to 19.2 per cent at 31 March 2014 since the partial novation, on 19 February 2014, of the Integration Agreement executed on 14 December 2011 with the shareholders of La Sexta and the reduction of the number of treasury shares. In the view of the representatives of RTL Group to the Board of Directors and other governing bodies of Atresmedia, management consider that this does not change the significant influence of RTL Group in Atresmedia. This transaction resulted in a dilution of RTL Group's interest generating a capital loss of €5 million reported in "Gain/loss from sale of subsidiaries, other investments and re-measurement to fair value of pre-existing interest in acquiree".

On 6 February 2014, Vice Media Inc. and RTL Group entered in a joint-venture agreement through the creation of Vice Food LLC, held at 70 and 30 per cent, respectively. The venture was set up to operate, and commission, develop and produce digital content for, a new online digital vertical known as 'Munchies, Food by Vice', across multiple platforms. Vice Media and FremantleMedia are also individually providing content to the venture.

On 21 February 2014, RTL Group disposed of its ownership in Asia Sports Ventures Pte. Ltd. and recognised a capital gain of €3 million presented in "Gain/(loss) from sale of subsidiaries, other investments and re-measurement to fair value of pre-existing interest in acquiree".

8. ASSETS CLASSIFIED AS HELD FOR SALE AND LIABILITIES DIRECTLY ASSOCIATED WITH NON-CURRENT ASSETS CLASSIFIED AS HELD FOR SALE

At 31 March 2014, Groupe M6 disposed of 100 per cent of its interests held in Mistergooddeal SA. The sale proceeds and the capital gain amounted to €2 million and €1 million, respectively.

9. POST-EMPLOYMENT BENEFITS

FremantleMedia Group Limited entered, in March 2014, into an insurance arrangement related to its defined benefit plan. A re-measurement loss amounting to €18 million has been recognised in other comprehensive income at 31 March 2014.

10. SEASONALITY OF OPERATIONS

RTL Group's revenue is generally lower in the summer months due to a reduction in advertising spend although this is compensated by higher advertising revenue in the run up to the Christmas period.

11. RELATED PARTY TRANSACTIONS

Financing

Deposits Bertelsmann SE & Co. KGaA

With the view to invest its cash surplus, RTL Group SA entered in 2006 with Bertelsmann SE & Co. KGaA (previously Bertelsmann AG) into a Deposit Agreement, the main terms of which are:

Interest rates are based on an overnight basis on EONIA plus 10 basis points; or on a one to six month basis, EURIBOR plus 10 basis points;

Bertelsmann SE & Co. KGaA grants to RTL Group as security for all payments due by Bertelsmann SE & Co. KGaA a pledge on:

- All shares of its wholly owned French subsidiary Média Communication SAS;
- All shares of its wholly owned Spanish subsidiary Media Finance Holding SL;
- All its interests in the German limited liability partnership Gruner + Jahr AG & Co. KG (73.4 per cent stake);
- All shares of its wholly owned English subsidiary Bertelsmann UK Ltd.

The interests in Gruner + Jahr AG & Co. KG and shares of Bertelsmann UK Ltd have also been granted as pledge by Bertelsmann SE & Co. KGaA to CLT-UFA SA, a subsidiary of RTL Group, in connection with the accounts receivable related to PLP and Compensation Agreements as defined below.

At 31 March 2014, the principal amount deposited amounts to €75 million (December 2013: € nil million) on a two and three-month basis. The interest income for the period is not significant (March 2013: €0.2 million).

On 22 December 2011, RTL Group Deutschland GmbH, a Group company, and Bertelsmann SE & Co. KGaA entered into an agreement related to the deposit of surplus cash by RTL Group Deutschland GmbH with the shareholder. To secure the deposit, Bertelsmann pledged to RTL Group Deutschland GmbH its aggregate current partnership interest in Gruner + Jahr AG & Co. KG as well as all additional partnership interests in Gruner + Jahr it may create or acquire.

At 31 March 2014, the three-month deposit of RTL Group Deutschland GmbH with Bertelsmann is € nil (million) (December 2013: € nil million). The interest income for the period amounts to € nil million (March 2013: € nil million).

RTL Group SA additionally entered into a Treasury Agreement in North America with Bertelsmann Inc. Interest rates are based on US Libor plus 10 basis points. At 31 March 2014, the balance of the cash pooling payable amounts to € nil million (December 2013: € nil million). The interest income/expense for the period is not significant (March 2013: below €1 million).

Loans from Bertelsmann SE & Co. KGaA

On 7 March 2013, RTL Group Deutschland GmbH, a Group company, and Bertelsmann SE & Co. KGaA entered into a shareholder loan agreement pursuant to which Bertelsmann makes available a term loan facility in the amount of €500 million and a revolving and swingline facility in the amount of up to €1 billion. The main terms of these facilities are:

- Term loan facility of €500 million until 7 March 2023 bearing interest at 2.713 per cent per annum; RTL Group S.A. has the right to early repay the loan subject to break costs. At 31 March 2014, the term loan balance amounts to €500 million (December 2013: €500 million);
- Revolving loans bear interest at the applicable EURIBOR plus a margin of 0.60 per cent per annum, and swingline loans bear interest at EONIA plus a margin of 0.60 per cent per annum. A commitment fee of 35 per cent of the applicable margin is payable where for purposes of calculation of the payable commitment fee the available commitment under the revolving and swingline facilities will be reduced by €200 million. At 31 March 2014, the total of revolving and swingline loan amounts to € nil million (December 2013: € nil million).

The interest expense for the period amounts to €3.4 million (March 2013: €1.1 million). The commitment fee charge for the period is below €1 million (March 2013: below €1 million).

Tax

On 26 June 2008, the Board of Directors of RTL Group agreed to proceed with the tax pooling of its indirect subsidiary RTL Group Deutschland GmbH ("RGD") into Bertelsmann Capital Holding GmbH ("BCH"), a direct subsidiary of Bertelsmann AG.

To that effect, RGD entered into a Profit and Loss Pooling Agreement ("PLP Agreement") with BCH for a six-year period starting 1 January 2008. Simultaneously, Bertelsmann AG entered into a Compensation Agreement with CLT-UFA, a direct subsidiary of RTL Group, providing for the payment to CLT-UFA of an amount compensating the above transfer and an additional commission ("Commission") amounting to 50 per cent of the tax saving based upon the taxable profit of RGD.

As at 31 March 2014, the balance payable to BCH amounts to €584 million (December 2013: €481 million) and the balance receivable from Bertelsmann SE & Co. KGaA amounts to €481 million (December 2013: €390 million).

For the period ended 31 March 2014, the German income tax in relation to the tax pooling with Bertelsmann SE & Co. KGaA amounts to €18 million (March 2013: €23 million). The Commission amounts to €6 million (March 2013: €11 million).

The trade tax loss carry forward at the level of Bertelsmann SE & Co. KGaA was completely consumed in 2013 resulting in a lower commission. At 31 March 2014, the commission related to the trade tax has been calculated on the basis of the trade tax carry loss expected for 2014 at the level of Bertelsmann SE & Co. KGaA.

The UK Group relief of FremantleMedia Group to Bertelsmann Group resulted in a tax income of € nil million (March 2013: €2 million).
